

Creative Bus Sales  
El Dorado Bus Sales

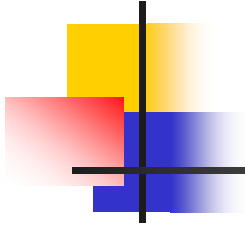

As the largest commercial bus distributor in the country Creative Bus Sales is dedicated to providing quality alternative fuel options to the transportation industry.

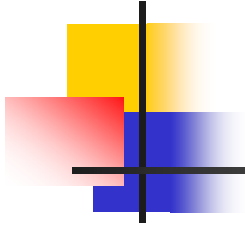

Our dedicated upfit facility in Chino, California, provides CNG conversions for Chevrolet and Ford based products. CNG options are available for vehicle types ranging from standard vans to 35' mid-sized transit bus models

Creative systems utilize only the highest quality components including systems from BAF for Ford based vehicles and Baytech for Chevrolet products.

Your vehicle choice represents a 5–10 year commitment to and partnership with the vehicle supplier.

It is imperative that the CNG upfit utilize the highest quality materials available to support the operation of the vehicle for its useful life.
